Latent_Diffusion_Drone.md

[Project]: Acrobatic Obstacle Avoidance
Goal: Uplifting model to run below human or AI path planning control.
Stack: PX4, ROS2 Jazzy, Gazebo Harmonic.
Currently running locally. Preparing architecture for physical drone hardware.

Experience_Edu.txt

[Edu]: HCMCUT
Major: Computer Engineering
Focus on embedded systems, Linux, and control algorithms.
Ready for robotics and firmware engineering roles.
Testing the notebook lines. Testing the notebook lines.
Testing the notebook lines. Testing the notebook lines.
